PIN-UP PUZZLE

Naughty, but nice! You display a jumbo playing card which has been cut into four pieces. The spectator assembles these to form a face-down jumbo playing card. The pieces are gathered, mixed, and turned over. The face of the card is the queen of hearts - - - from a "wolf pack", featuring a photograph of a nude young lady. The spectator is asked to reassemble the puzzle. To everyone's surprise, there is now one rather strategic section now missing from the puzzle. Very funny-patter possibilities. No-sleights—it virtually works itself.
